TIPS: 1) Unplug other garage door openers or any signal transmitting devices in the garage. Anything cheaper available? The frequency of your opener can be located on the back of the remote control.-----Specifications: • 303 Mhz Frequency • Model #02-3039 UH • Part #297138 • Alternate Part # 02-3039 UH, 02-3039 U Compatible Accessories: Three Button Remote - 297134 For a complete List of our Wayne Dalton Products Click Here California Residents: Proposition 65 Warning California Residents: Proposition 65 Warning QUESTION: I have tried changing the battery on my keypad, it lights, but still does not appear to be functioning. by fred s 1/1/2016 QUESTION: fits Quantum 3000 Series 3213? It happens if I don't hit a key correctly. The PROGRAM STATUS light will turn off indicating a successful learn. Press the same button on the Transmitter once more to operate the door. If you are unsuccessful in programming the transmitter to the motor head unit or if the button does not operate the door you probably have a faulty motor control board. b) If you have a red LED on your wall station, you only need to follow the Wall Station Programming instructions. This helps conserve battery life because the sensors only turn on when the door is activated and moving. Q: My garage door opener will work using the button on the wall in the garage, but the remote for the car will not work. A: First try resetting your opener by unplugging the opener power head from the wall outlet. The Trolley travels a short distance from the Open position and reverses. Q: My garage door opener will work using the button on the wall in the garage, but the remote for the car will not work. Q: What is the gauge of wire used for the wired Photoelectric Sensors and Pushbuttons? Q: What is the purpose of the A,B,C settings in the Wireless Photoelectric Sensors? Q: What remotes are compatible with the Quantum 3312, and 3313? Q: Wireless Wall Station will not program. Q: Can I use my Transmitter (remote) from another opener with the Wayne-Dalton opener? A: No. Only Wayne-Dalton transmitters will work with a Wayne-Dalton opener. Q: Do you have a one button transmitter for a wayne dalton Quantum 3212? A: The one button version is no longer manufactured. If you are referring to a keypad you already have, you would want to grab that from here:
